DETAILED ACTION

Examiner's comment

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 5,11. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. **Claims 1-11** are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or render obvious a bottom watering type plant cultivation device as claimed in detail. None of the prior art teaches a flowerpot with a bottom part projection, a refillable water vessel, a nutrient solution guide with a pair of space parts containing different solid manures, a water absorbing unit, and a root intercept unit. In addition, the prior art fails to teach the specific placement of each of the features above relative to each other.
